LEARN.

Liaison Education And Risk Network

L.E.A.R.N. is a FREE training class based on the fundamentals of Active Managerial Control and the Centers for Disease Control and Prevention's five risk factors that lead to foodborne illnesses.

Designed To

- Educate operators on food safety
- Teach practices and procedures that will reduce foodborne illnesses
- Provide a forum to network about various food safety topics

Who Benefits?

- Anyone who prepares, serves, and handles food
- Anyone who can promote change in a facility to ensure safe food is served
