

Steps to take when your child does not qualify for the vaccine through our free mobile events

Here is where you can go:

- **Call your insurance**

For children with health insurance, most health plans cover 100% of the cost of vaccines, including flu, measles, pneumonia and childhood immunizations.

- **Primary doctor**

Pediatricians or family doctors' offices can give your children the shots they need to stay healthy and meet the requirements for starting child care or school.

- **Visit a San Bernardino County Federally Qualified Health Center (FQHC)**

Our health centers provide a variety of health care services, including vaccinations. Call 1 (800) 722-4777 to make an appointment for all clinic services. Locations are available in San Bernardino, Hesperia, Adelanto, and Ontario.
